

# Typical water piping installation for Aqua<sup>2</sup> (SFK 55) hot water heater using a mixing valve and tankless water heater valve kit

**Notes:**

1. Check with local authorities for any additional requirements.
2. All components in piping diagram are not supplied with the water heater.
3. Re-circulation pump installed inside.
4. A timer is suggested to reduce energy costs during stand by periods.

**Water connection under SFK 55 models with standard supplied pipe kit.**
